Coaching Philosophy

It is through my love of this sport that I provide a safe and enjoyable skating environment for every skater I work with. I am truly dedicated to each one of my students and it is my goal to help them achieve every one of their dreams. I want all of my skaters to become well-rounded athletes and people in a positive learning atmosphere. It is my duty to help them maintain their passion for the sport while providing knowledge, good technique and hard work to help them become the best skater they can be.

Personal Achievements Skating
